

David Othiambo Ondieki

Biomedical Science & Technology Graduate | Laboratory & Diagnostics

Mlolongo, Machakos County | 0713 666 732 / 0793 250 255 | davidondieki046@gmail.com

PROFESSIONAL SUMMARY

Biomedical Science and Technology undergraduate at Egerton University (expected graduation: November 2026) with hands-on laboratory experience from an industrial attachment at KALRO and an undergraduate research project in nanoparticle extraction. Skilled in sample handling, laboratory data entry, documentation, and basic data analysis, with strong attention to accuracy, confidentiality, and safety protocols. Proficient in the Microsoft Office Suite, fluent in English and Swahili. Eager to contribute to KEMRI's EID and Viral Load Program through reliable sample processing, accurate data management, and support in pathogen identification.

EDUCATION

Bachelor of Science in Biomedical Science and Technology **Expected: November 2026**

Egerton University, Njoro, Kenya

Kenya Certificate of Secondary Education (KCSE)

2022

Riokindo Boys High School

WORK EXPERIENCE

Industrial Attachment

Kenya Agricultural and Livestock Research Organization (KALRO) | Supervisor: Victor Muhoma

- Performed accurate data entry into laboratory systems and managed sample reception and archiving.
- Maintained detailed documentation of daily laboratory activities in compliance with established safety protocols.
- Collaborated closely with a multidisciplinary research team to support and achieve project objectives.

UNDERGRADUATE RESEARCH PROJECT

Nanoparticle Extraction Using Kales from Silver Nitrate

Supervisor: Dr. Caroline Kosgei | Laboratory Support: Mr. Gabriel Siboe & Ms. Abubakar Mwajuma

- Conducted laboratory testing to assess compound identification and extraction efficiency.
- Analysed experimental data in Microsoft Excel and prepared findings for project defense using PowerPoint.
- Compiled comprehensive written reports and summaries of experimental findings using Microsoft Word.
- Maintained meticulous documentation of all procedures, in line with strict safety protocols.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Member of Parliament (Congress Person)

Egerton University Student Congress

- Represented student interests and facilitated communication between the student body and university administration.
- Resolved conflicts and organized student forums, demonstrating strong interpersonal skills and integrity.

Football Team Member

Egerton University

- Collaborated with teammates toward common goals while balancing rigorous academics with athletics, reflecting discipline and strong time management.

SKILLS & COMPETENCIES

Technical Skills: Laboratory sample handling, data entry, compound/pathogen identification, basic data analysis, report writing.

Computer Literacy: Proficient in Microsoft Office Suite (Word, Excel, PowerPoint).

Languages: Fluent in English and Swahili (spoken and written).

PERSONAL ATTRIBUTES

Person of integrity and goal-oriented, with strong analytical and interpersonal skills. A dynamic self-starter and team player with excellent communication skills.
